Certificate of Continued Product Compliance

To: Whom It May Concern:

This Certificate of Continued Product Compliance is issued by Comfort Colors by Chouinard in response to the requirements of the United States Consumer Safety Improvement Act (CPSIA) of 2008.

The Consumer Product Safety Improvement Act CPSIA of 2008 (HR 4040) was signed into law on August 14, 2008. The act reauthorizes the Consumer Product Safety Commission (CPSC) for 2010-2014 and expands the Commission's role in ensuring the safety of consumer products, especially those designed for children and up to age 12 years. This law will also allow better enforcement tools to the Consumer Product Safety Commission (CPSC). This legislation will impact the way we develop, test, manufacture and ship our products. Comfort Colors by Chouinard is committed to comply with the required legislation and accordingly intend to meet these requirements. Therefore we have set up appropriate testing procedures and quality controls systems as well as auditing and tracking procedures to ensure compliance with HR 4040.

For the products listed below we certify that we have developed adequate procedures to test and control the quality of products manufactured by Comfort Colors by Chouinard. We certify that products bearing the Comfort Colors label meet the test requirements set out in Comfort Colors by Chouinard Product Safety Testing Requirements as well as the requirements outlined in the CPSIA for the following (as applicable - see below chart for guidance):

We represent and warrant that the goods shipped are fit and safe for the use for which they were manufactured, and that goods or the resale thereof by Comfort Colors by Chouinard or its Distributors of this BLANK APPAREL does not and will not violate any laws, regulations, orders or ordinances of the country of origin or of the United States or any state or any agency or political subdivision thereof, including but not limited to the CPSIA of 2008. The goods are free from defects in material and workmanship and are fit and safe for the use or uses for which they are produced.

We further certify that we have systems in place to audit and track test results for Comfort Colors products and upon request we will provide the required documentation to support compliance to these requirements.

Name and location of third party testing lab:
Consumer Testing Laboratories, Inc.
2601 SE Otis Corley Drive Bentonville, AR 72712

A handwritten signature in cursive script that reads "Barry T. Chouinard".

Name: Barry T. Chouinard
Title: President, Comfort Colors by Chouinard

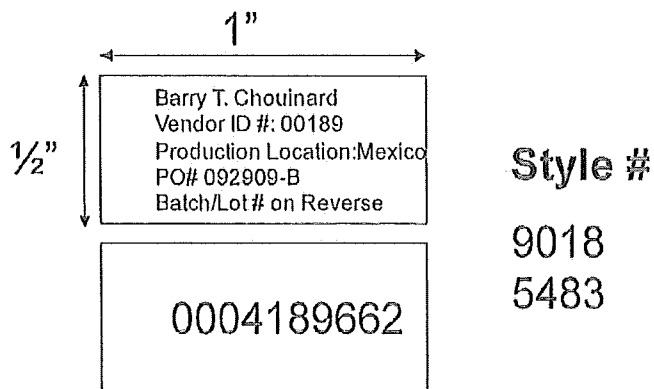

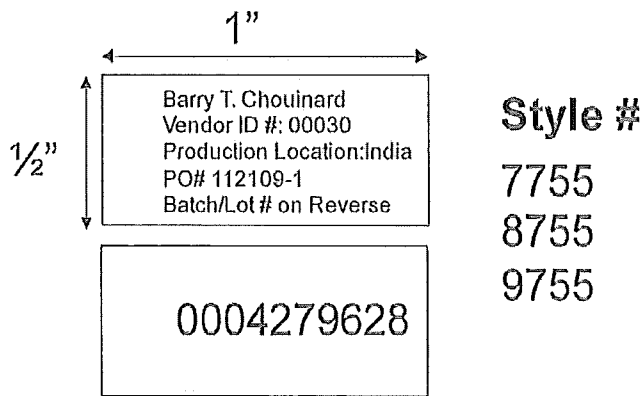

CPSIA Tracking Label Requirement

As of August 14, 2009 (CPSIA) has also placed tracking label requirements on Youth garments for children under the age of 12 years. The information on this tracking label will enable us to track our supplier's key elements such as yarn, trim, dyestuffs, label, sewing thread, accessories used on our products. Inventory produced prior to 08/14/09 does not require this information.

We have complied by placing the following labels in our Youth products for Children under the age of 12 years on goods produced after 08/14/09.

Labels Inserted in the following youth styles are for tracking all inputs to garment manufacturing.

For specific Youth garment tracking information please email cpsia@dyehouse.com.

CPSIA REGULATIONS APPLY FOR THE FOLLOWING:

1599 Ladies Fleece Pants	X	N/A	N/A	N/A	N/A	N/A
1565 Hooded Sweat	X	N/A	N/A	N/A	N/A	N/A

Notes on the above:

- 1) **16 CFR 1303 Lead in Surface Coatings:** This test does not apply to any of the garments we currently manufacture.
- 2) **CPSIA Section 101 Total Lead in substrate:** We as a company have decided to use the more stringent requirements to certify our products, insuring that our products meet not only the current requirements, but also all currently published future total lead requirements. We have decided to do this because of the nature of our business and the fact that our inventory can remain on hand over the period of time that these laws will be changing. Therefore, we certify, in regards to total lead, that all of our products have less than 100 PPM total lead content.
- 3) **16 CFR 1500.48, 49 Sharp Points and Sharp Edges:** As required, we will be testing one item; our style #7755 Youth Zippered Sweat.
- 4) **16 CFR 1501 Small parts:** This test does not apply to any of the garments we currently manufacture.
- 5) **CPSIA Section 108 Phthalates:** This test does not apply to any of the garments we currently manufacture.
